Forecast For Southwest England
Issued by Met Office Exeter
at 0400 on Wednesday 13 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Mostly dry and cloudy with mild temperatures.

Today:
A dry and cloudy day for most, with the odd scattered shower. There could be the tail end of the night's rain in the eastern part of the region, but that should clear quickly. Mild for this time of year. Maximum temperature 12 deg C (54 deg F).

Tonight:
The evening will start dry for most, before rain, locally heavy, moves in later in the night. Clearing for most by the morning, though some may see light rain linger. Minimum temperature 5 deg C (41 deg F).

Thursday:
Another dry and cloudy day for most, with the far west possibly getting some sunshine. Localised light showers possible, especially towards the east of the region. Maximum temperature 10 deg C (50 deg F).

Outlook for Friday to Sunday:
Friday dry and cloudy, but a band of rain, often heavy, will come from the west, reaching Cornwall Friday night and clearing east by Saturday evening. Sunday dry and cloudy.
